As the crystal-voiced lead singer of the 80s trio, Baillie and the Boys, she was the heart of six successful country albums and 10 Top-10 hits. Thankfully for fans, her voice is as good as ever. Baillie got her start singing background for such artists as Dan Seals, Lynn Anderson, Randy Travis, and others. Then, with her future husband Michael Bonagura and pal Alan LeBeouf, formed a group specializing in close harmonies and catchy tunes. After the group's skyrocket with RCA fizzled, Baillie spent a couple years as a co-host and performer on the Nashville Network. Baillie's sound now, as then, is passionate, with vocals that seem genuinely heartfelt as they wring emotion out of the lyrics. The 10 numbers on this album are, without exception, very good. One special treat is "Old Glass Case," done with Baillie's daughter Alyssa Bonagura and the song's creator, Paulette Carlson. Another worth mention is Vince Gill's "Never Knew Lonely," with a vocal assist from Gill himself. - Ken Rosenbaum
