Let me tell you a short story of how I became an artist. My Musical carrier all started one night when my mother took me to see a concert, we were standing in line to get tickets at the Howard Theater in Washington DC. The line was around the building and down the alley. In those days they had a line to buy a ticket and a line to get in the concert. At 10 years old I didnt know who James Brown was, from that day forth I would never forget the show that James brown gave that night. That show left an unbelievable Impression, To be there and see James Brown Live in his Prime, well there are no words that can explain the electricity in that theater. After that night I knew who James Brown was, that was my beginning. You Got That Feelin took seven month to finish, he put a lot off thought in his music, a good song can take months to create and only minutes to hear. but its those few minutes that drive our emotions and make us feel good. This is a special group very talented musically and vocally, With Kirk (Guitar) Thompson outstanding performance that captivates the audience makes this group worth every bit of youre time to see. A very polished group of musicians, a must see

live. ASCAP - The American Society of Composers, Authors and Publishers welcomes Kirk(Guitar)Thompson as Songwriter and Composer.
