

Mp3 Logan Rayne Pepper - Loganitis

[DOWNLOAD HERE](#)

Think introspective Altern-Acoustic. If Staind ran into Dave Matthews in a dark alley, you might end up with something like this. Check it out. 10 MP3 Songs ROCK: Acoustic, ROCK: Modern Rock Details: If there was an award for the most "self-infected" collection of songs, the aptly titled acoustic album from Logan Rayne Pepper, "Loganitis," would be a serious candidate. This is an artist in the throes of a thoroughly cathartic musical release. Have a listen to the driving, heartfelt "Hermione," (written from the point of view of everyone's favorite boy wizard), the tormented "World Of Expression," or the acoustic-orchestral ballad "Where You Are" as it builds to its heart-racing climax, and you'll agree. See for yourself why fans are saying "This is some of the best stuff from anywhere in a while," "Definitely radio worthy," and "We can't wait for more!" This stuff is dark, raw, and it will give you chills. Are you ready? For more information, please contact: Logan Rayne Pepper 5807 Afton Ridge Lane Houston, TX 77084 loganraynepepper@loganitis.com
