Box 781 Escondido, CA 92033 (make Check or Money Order Payable to: Roman Velasco) What up? My name is Pain. I'm a beaner from Escondido, California. I started writing rhymes and rapping in about 1999 or 2000, but stopped when i got kicked out of high school for my lyrics (They thought i was going to shoot up the school, I was a "high threat", they confiscated my rhymes and the police told me they would lock me up if i ever did anything else). So I stopped rapping, and writing rhymes for about 3 years. But I always wanted to rap so in mid-2005 I told myself "Fuck it, I'm goin to do this I don't care who hates on me" So I started writing lyrics and rapping and making beats again. And I started going to the studio and recording. Then a few months later i met my homie Saggy, found out he rapped. We were cool with each other so we decided to start a label, we named it Get Some Records. We bought equipment and put together a studio in his house (that's where i recorded most of my first CD). Then i let him know i wanted to start my own label (Masakizt Records) and he was cool with it. So I bought my own equipment and started

recording at my place. Now I always record in my place "MASAKIZT STUDIOS". Dj C-Zer designed my CD Covers. If any Producers would like 2 give me some beats let me know, cuz I want some beats!!! (For Free I can't pay money but i'll give you credit on my CD) or if any rappers want me to get on their track just let me know, aight ! (I like working with other artists, so I don't charge money to get on da track, I just have to like da song, and you have to give me permission to use it on my CD if I decide to put it on one of my CDs) Thanks Places You Can Visit Pain: [myspace.com/calipain](http://myspace.com/calipain) [mp3.com/painmasakizt](http://mp3.com/painmasakizt) [tagworld.com/calipain](http://tagworld.com/calipain) [cdbaby.com/cd/painmusic](http://cdbaby.com/cd/painmusic) [painmusic.hi5](http://painmusic.hi5) [rockworksshowcase.us/CaliPain](http://rockworksshowcase.us/CaliPain) [soundclick.com/calipain](http://soundclick.com/calipain)
