Details: Temika Moores style cleverly echoes elements reminiscent of old school R B, Romantic Soul, Traditional Pop and Gospel music with respectful infusions of jazz. This musical cocktail sets the backdrop for Temika Moores sophomore cd, Doing Just Fine. Its a pleasant surprise of unprejudiced use of sounds and styles that helped to shape Temikas aural personality. Its an organic experience. Its spiritual. Its funky. Its jazzy. Its folky. Its soulful. Imagine; the refined soul of Anita Baker meets the experimental and deeply personal folk-style of Joni Mitchell who meets the inspirational-themed style of Yolanda Adams. Simply stated...its passionate. Temika Moores sophomore cd, Doing Just Fine is her second installment as a songwriter and is a precursor to her spiritually uplifting, life-changing, audience-connecting live shows. She has quickly garnered a reputation as a songwriter with deep lyrical content and impressive melodic vocal arrangements. This project is the perfect follow-up to her debut project Moment of Truth. Moment of Truth was about finding my way. Doing Just Fine is about accepting what I found and being okay with it, says Temika. This time Temika stretches her songwriting capability, experiments with producing, and embraces the role of Executive Producer. I am proud of the work on this project and hope listeners embrace the concepts and ideas embodied in this project as my contribution to the world in an effort to help encourage self-acceptance, says Temika. Temikas current body of work Doing Just Fine contains original compositions such as the head bopping, jazz-infused Fruit which is a welcomed breathe of fresh air from the usual man-bashing to which weve become accustomed, but actually celebrates the heart of a man. Doing Just Fine the title track, is an honest, hits you

right-in-the-heart letter to a father who made the choice not to accept the role of parent and chose to leave his daughter to be raised without his presence or instruction in her life. Come Sunday is a reflective song that tells the story of Temikas grandmother, Annie and her childhood memories of their times together. She also pays homage to the Isley Brothers with a smoothed-out, romantic version of Groove with You, and a soul-stirring version of Seawinds Follow Your Road. This project is the missing piece in your music collection. This cd is for you if you have Sades Lovers Deluxe, the Isley Brothers Greatest Hits Vol.1, any album from the Gap Band, Phyllis Hymans Prime of My Life, Jill Scotts Words Sounds Vol.1, Lizz Wrights Salt, Lalah Hathaways Heaven or Outrun the Sky, the Brand New Heavies first album with the vocals of NDea Davenport, or all of Anitas Bakers albums from The Songstress to Youre My Everything in your cd case, in your cd player or on your mp3 player, then this cd is for you. If youre like most die-hard fans of old school, Soul and R B or you simply have a genuine love for all things musically intelligent and are always looking to quench the musical thirst, then support Temika Moore. Spread the word. Be fruitful. Go forth and multiply! Temika Moore writes, manufactures, promotes and markets her music, as well as heading up Moore II Come Entertainment, the umbrella company for the Temika Moore brand, along with Pink Panna Music which serves as the publishing company for Temika Moores music.
