Weird kids music funny quirky 25 MP3 Songs KIDS/FAMILY: General Children's Music, KIDS/FAMILY: Kid Friendly Details: If you are discovering Barry's music for the first time, don't start with this CD! Instead we suggest "Teachers Favorites," "Family Trip," "Old Dogs, New Tricks" or "A Little Different." This CD originally came out in 1979 and is for dedicated fans only - those people who grew up on this recording. The songs are edgy and some of the references are dated. Barry says he only knew four guitar chords when he recorded this album and only used three of them on the record because he didn't want to show off. We think it's off-the-wall and Barry thinks it's off-key.
