'REAL' is a traditional country album with a modern feel. Singer/Songwriter C. Lynne uses her soulful voice to tell the tale of Heartbreak, Healing and Moving on with songs like 'When'and 'Time won't wait'. 5 MP3 Songs COUNTRY: Modern Country, COUNTRY: Traditional Country Details: From a small room in Pennsylvania, C. Lynne wrote the songs, played all the instruments, sang all the vocals, recorded and created this CD. "Real" is more than an album title. It is a reflection of a life being lived, felt and shared through the heart, soul and voice of music. ----- Excerpt from C.Lynne's web page: Where did it all begin? Well....It was a dark and stormy night.....oh, wait, wrong story. Ok, let's try again. A few years ago, in an attempt to conquer stage fright, I began playing singing at open mics. People started coming up to me asking if I had a CD of my songs. All I had were demo tapes so I had to figure out how to go about making a CD that would be good enough for those who wanted it. Long story short, after an attempt in a start-up studio (arrrg), and low finances (*sigh), I decided to do it on my own. After all, it was my vision to have this CD be as real as its Title the music on it..... ----- Some feedback: C. Lynne is truly a gifted singer, songwriter.
