They're back. 7 MP3 Songs ELECTRONIC: Industrial, ROCK: Goth Details: THE PAST Cradle Of Thorns formed in 1988 by Ty Elam COT released a series of one-off albums (including 1990s seminal Remember It Day) that, along with extensive touring, earned them a national underground following. Signed in the early 90s to Triple X Records - home to, among others, Social Distortion and Janes Addiction - the group relocated its base of operations south to the thriving Huntington Beach music scene, even as they continued to attract attention with releases like 1994s Feed Us and its follow-up, 1996s raging Download This. In between studio stints, the band opened for a bewildering variety of acts from the above-mentioned Social Distortion to Offspring, Sunny Day Real Estate to SugarRay. In 1998 Cradle Of Thorns signed to Korn's Elementree Records label, and changed the band name to Videodrone and released what would be Cradle Of Thorns 4th Studio album, after a series of tours with Korn, Rob Zombie, and Orgy, Videodrone broke up in 2000. THE PRESENT After a slew of failed projects Ty Elam met Steve Thiriot in Las Vegas, NV (2005) while each others bands at the time played a show together at The Cooler Lounge, Steve being a huge Cradle Of Thorns fan was honored to share the stage with one of his all time musical idols. The two stayed in touch over the next couple of years. Missing the vibe from Cradle Of Thorns and never really liking the name Videodrone Ty revived the name Cradle Of Thorns, and in march 2007 headed to Las Vegas from Bakersfield to meet up with Steve, bringing along long time friend Matt Wilkinson, The three started work on a new Cradle Of Thorns record. All Over Again is a taste of what's to come!! If you have ever been a fan of Cradle Of Thorns Or Videodrone please buy this CD or buy the mp3's and support this band! People who are interested in Skinny Puppy Black Flag should consider this download.
