Original contemporary Christian music with smooth vocal harmonies. 5 MP3 Songs GOSPEL:

Contemporary Gospel, EASY LISTENING: Soft Rock Details: Life is full of choices, but along the way are you focusing on Him? The world often bites our heels as we walk through life, and we have found that the only way to survive is to focus on Him, not our problems. Worshipping God through our music provides us an opportunity to tell the world about our favorite subject: JESUS CHRIST, our Lord and Savior, without whom we are nothing and with whom we can accomplish all things; whose mercy and sacrifice we are unworthy of but forever thankful. Each of the members of Focus on Him has our own testimony of how God has orchestrated events in our lives to bring us to this place and time. Some of us have always been in the ministry, while a few of us took a wrong turn here or there along the way. Each of us feels blessed to have been brought together as an instrument spreading the Word through music. Our debut CD, An Unfocused World, is a collection of original material, smooth vocal harmonies in a contemporary worship style, reflecting the heart of our message. Even though we are unworthy, Gods loving grace will shine through a willing heart. It is our joy and purpose to glorify Him in all things, and we daily seek a closer relationship with Him.
