Inspirational and traditional Gospel with harmonious backup vocals and great accompaniment. Good lyrics that capture the soul. If you like music from the 70's and 80's you would like this gospel album. 10 MP3 Songs GOSPEL: Traditional Gospel, POP: Delicate Details: Gene Higgins, Geno as he is affectionately called is a fast rising singer songwriter with a strong message to anyone who desires a closer relationship with Jesus Christ. His lyrics reflect his experiences as a christian where he seeks to show himself as a testimony as to the goodness, faithfulness and the great love of God for us all. Gene has written songs that satisfy most genres of music but he enjoys smooth and light music which when flavored with his Trinidad accent creates a blend he calls "Trintex". Gene thinks that Trintex best suits him to present the Lord's message with clarity while still maintaining a bounce that promotes an atmosphere for praise and worship. Over the years Gene has ministered in song and the preaching of God's word both in Trinidad and in Texas where he now resides with his wife Gerene and their daughter Genelle. Gene has affiliations with World Bibleway Fellowship where Rev. Dan HOPE is the president and is a member of Hillcrest Church where the pastor is Rev. Mark Brand. He is a member of The Father's House under the leadership of Bishop Eddie L Long. His debut CD THE MESSAGE is a mixture of praise and worship, some inspirational and jazzy, some again, smooth and soothing that touches the soul and some? yet again carries that Caribbean bounce highlighting steelband music. Gene thinks that his CD the Message is ideal for home listening, especially on Sunday afternoons in the comfort of your living room. THis CD makes an ideal Christmas gift and is anointed to bless everyone who secures a copy for many years to come. Gene hopes that you enjoy his music as much as he does. Merry Christmas and have a Blessed 2007. And remember, They that are faithful, patient and true shall reap the rewards of the Lord in this life, and in the life to come. Love Gene
