features club joints, and songs relating to everyday living. 14 MP3 Songs HIP HOP/RAP: Southern Style, HIP HOP/RAP: Rap Details: I grew up in East Texas but later moved to Houston, after I graduated High School. I always had Family in Houston, so I knew it was more opportunities for me to better my career. Being A Rapper in East Texas was very hard since the population was so small. Dont get it wrong, me and my Brothers got a lot of love back in the hood. Being that our hood logo was 25th Circle it became our group name. Back in school I performed at talent shows and other street events. My Brothers and I hade the hood on fire with songs like (Pocket Change) and (Too Much). After one brothers got shot, and my oldest brother being sentence to eight years in prison, I felt like everything was going down hill, and I was left in this world all alone. After I moved to Houston I met a couple of guys from Greenspoint doing beats. Later I started back writing and recording more music as time went by. I realized that this was my dream and I wasnt giving up. Even though this is just my first solo project, Im looking forward to a bright future. Only time will tell if all the hard work pays off, but if not I have my Family on my side.
