

Mp3 Jack Remington - Chameleon With Dollie Mcfarland

[DOWNLOAD HERE](#)

An acoustic blend of folk and traditional country. Willie, Waylon and Merl go folk. 11 MP3 Songs in this album (32:55) ! Related styles: COUNTRY: Traditional Country, FOLK: Modern Folk Details: Jack Remington and Dollie McFarland As a chameleon changes its color to blend with its surroundings Jack Remington and Dollie McFarland change voice and style to blend with their material that ranges through country, folk, blues, pop and gospel. When you experience them for the first time you immediately see two seasoned old troupers who have been down all those roads that lead through the big city nightspots and the down-home country honky-tonks. And along the way forty years of singing together has given them a unique sound and perspective on the world. Here is a couple who are charging off after their dream at a time in life when others would opt for a rocking chair and a pitcher of tea. We never grew up, they joke. Its arrested development. Over the years Jack and Dollie have played everything from embassies and country clubs to Texas knife and gun honky-tonks. They sang in the Greenwich Village folk clubs back in the sixties, toured the orient with the U.S.O. back during the Viet Nam war and were signed songwriters with Seals and Crofts Dawnbreaker Publishing in Hollywood. Several of their songs were recorded by Nashville artists. This CD is a labor of love and we hope you enjoy it as much as we enjoyed making it. Thank you for your support.
