Les Cherubains has revealed the artists impending CD debut, Into the World of Music, an aptly titled release that will introduce CD addicts to the unique tekhiprock flavors of this project of Houston, Texas Charis Dondeli. Dondelis songwriting draws heavily from retro elements, redefining them for a new and demanding generation of listeners that require cutting edge music in the realm of electronica. Ill have to say that my musical influence comes primarily from 80s music, Dondeli admits. I love the sound and the decades melody. But he also points out that his music is in no way dated or clichd. The past looks forward to the future and the future prepares the present, he quips. The new album will boast an eclectic yet cohesive blend of styles, he explains. First, it starts off with an old school hip-hop style, then follows up with the amazing sound of tomorrow! Dondeli also has his hands in production and animation. I am a student right now in college, but I work privately with my personal projects. Music has been a part of me since I was little, but art is my greater thing I want to accomplish in life. I want to be a animator and media artist. I have spent some time with my computer in composing soundtracks and instrumental music for my future cartoon, Les Cherubains. A little bit about me, Im originally from Zaire

(now Democratic Republic of Congo), and Ive lived here in the States for 7 years now. My original talent was art and design, but two and a half years ago, I discovered my skills in music. Since then, Ive been mixing and creating music. Here some bands that I think have influenced me : first, my favorite band, A-ha. Then: Depeche Mode, Madonna, Whitesnake, Scorpions, Dead or Alive, The Cure, Michael Jackson, New Order, Chicago, The Cars, Megadeth, Pet Shop Boys, Journey, Aerosmith, AC/DC, and all other 80s artists. My style includes hip hop, rock, and electronic sounds. I want my musics to heal and ease the souls of many people who will put their ears to them. I have a website where you can listen to my other tracks that I dont have here on cdbaby. Its here at : [idounderground.com/cman](http://idounderground.com/cman).
