

Sustainable Transport

[DOWNLOAD HERE](#)

The aim of the book is to present the emerging environmental issues in organization and management of transport logistics. The scope of book includes set of solutions which show different stakeholders viewpoints on sustainability. It points out how the transport operations organized and conducted in companies and regions might be consistent with the concept of sustainable development. The scope of book takes into consideration trade-off relations between actors directly and indirectly involved in transport networks. Therefore, authors present, in individual chapters, innovative approach to eco-friendly organization and coordination of transport processes, as well as management of transport networks.
