Are you looking for software where you can select the advertisements yourself? That could prove to be a easier setup and more revenue for you if done that way. Ads Rotator can do exactly that. The software program is built to place links for any affiliate programs of your choosing. You are in control of what ads are placed on your webpages. This software package is in direct contrast to many of the other ad programs, where you have to adopt the ones that are given to you. Basically, those are dependent on the kind of content you have on your site. In this event, the ad programs are in control of what ads are put on your site. There may be ads that are slipped in that you may not like. Regrettably, due to lack of control, you cant modify them. However, you do have an choice with Ads Rotator. Place yourself in control of your site and choose the advertisements you wish with this software. You can make massive revenue and not deal with the nickels and dimes from pay-per-click programs. Then, if individuals violate your site, you run the chance of getting banned by the program. With Ads Rotator, you dont have to concern yourself with that. The advertisements you choose can provide you with greater commissions than you would get with pay-per-click ads. You might have to wait numerous months before you would make a profit and you have to make so much before funds are paid out to you. With Ads Rotator, you could get paid inside a matter of weeks from the affiliate ads. When someone clicks on the affiliate ads, a new window opens up, allowing them to see what site they've clicked on. Another great thing about this software is the affiliate links are cloaked and you dont have to worry yourself with affiliate thievery. When your'e in control, you can choose how you wish the ads to look. You are not conformed to a particular feel or standard. With pay-per-click ads, you have to abide by the ad programs rules and regulations. Otherwise, you could chance being banned and losing your account. With this software, there is an administrative control that you can use. You can select to add, alter or delete ads that you don't want or like. This will help you select which ads you believe will help you better for revenue purposes. The software also allows you to see the number of impressions for each advertisement on your website. You can also check your websites click-through rate. If some of your ads aren't performing well, you can get rid of the low performing ones and substitute them. You can't do that with pay-per-click ads. If you want to add images to your ads, you can

do that too. There's no limit on how you wish your ads to look. The software script is uploaded to your website. It only involves a few minutes and then you're set to make modifications if you wish. If you want to create more profits, then Ads Rotator is what you're searching for. Tags: ads
