

Avatar-philosophy (and -religion) Or Faitheism - Edmond Wright

Are you prepared, either as an atheist or a religious believer, to have your ideas of God, the self, other people, the body, the soul, spirituality, and faith challenged in an unexpected and original way? Here is a book that moves out from under and away from the received notions of those ponderous topics, whether or not you believe in the divine. The author is a confessed atheist but one who rejects the approach of Richard Dawkins, Christopher Hitchens, Michel Onfray and the rest when they depart from their justifiable criticisms of the historical record of the established creeds and endeavour to rubbish what faith could actually be. The book takes its origin from an exploration of the idea of an avatar; the writing of it was stimulated by seeing the Cameron film, though it subjects that film itself to an assessment of its hidden assumptions. The book finally arrives at specific recommendations for our time, ones to which the argument of the book has been directed throughout.
