Here's how to turn \$9.00 into \$9,000... I have spent a fortune online buying established websites and businesses from marketplaces like Flippa and EBay. For the most part, these businesses required far too much time and energy to get off the ground, and I found myself abandoning most of the businesses I purchased, without ever recouping my investment cost. Then, I happened to stumble into the domain marketplace one day while browsing for yet another start up business. What I saw absolutely shocked me (and I don't shock easily). These guys were making an absolute fortune selling simple domain names for thousands of dollars, in fact, most of the domain names were NEWLY registered for only \$9 yet were flipping for over 50x their value! Imagine being able to take a \$9.00 domain name and resell it for \$900 time and time again. Think of just how easy it would be to make more money simply flipping a handful of domain names than it would be working overtime at a 9-5 job.. Are you starting to see the potential in this? And if you've been told that all of the good domain names are gone, think again. The domain names that are selling in popular marketplaces are generic, every-day ORDINARY domain names.
