You are 3 patterns and 7 bends closer to perfecting Blues Guitar Soloing. Learn to play the blues like BB King and Peter Green. No, not like Clapton or Hendrix, they use pentatonics (see my ROCKSOLID PENTATONICS ebook) these guys use the A Dorian Minor Scale. watch me demo each pattern, add the bends, use it for a solo, you copy, join the dots, add the bends, move freely between the 3 patterns with bends to create your own Blues Solo over the backing track.
