"This is Baroque pop at its finest, recalling not only the high llamas, but more pertinently van dyke parks and brian wilson." - totally wired magazine 14 MP3 Songs POP: Quirky, FOLK: Modern Folk Details: Chimp are pleased to announce the release of their second album Can't Stop, On Fire - the follow up to last year's critically acclaimed release Lowfer. Locked away in an old bank vault on the outskirts of a Sussex coastal town (Brighton, England) Chimp have recorded 14 new songs ranging from the epic 'Mir' through to the quiet, sublime, off-kilter beauty of 'Lakeside'. Described as "oddball" and "gorgeous", Chimp are promoting this album with a series of gigs across the South Coast. We'd like to do some European and American gigs, but have to wait for our singer Laurence's bail conditions to be lifted first. Can't Stop, On Fire was recorded at Church Road Studios, Hove and produced by Chimp, Julian Tardo and Mat Benzie. It is released on the band's own label Slow Records and available through CDBaby, Amazon and local retailers. "Of all the bands we've heard for this week's Radio 1 Live in Brighton, I think Chimp are my favourite. I like them very much indeed!" - John Peel, BBC Radio 1 "Chimp have a crystalline and woozy sound that evokes idle, snug days listening to Low in winter." - Comes With a Smile "This is baroque pop at its finest, recalling not only the High Llamas, but more pertinently Van Dyke Parks and Brian Wilson." - Totally Wired "...embracing psychedelia-tinged melodic pop with very English eccentricities." -The Source "Brighton's best kept secret" - Closer Review
