Acoustic rock with a driving back beat, memorable hooks and thought-provoking lyrics. 7 MP3 Songs

ROCK: Acoustic, POP: Beatles-pop Details: Where you are today is not a single place, but the culmination of everything before and the anticipation of everything yet to be. Dan's been to the usual places - and then some. He'll probably go somewhere else tomorrow. It seems like only yesterday that Dan explored the Boston Music scene in college bands such as Scarlet Reign and T.C. Mann. Following his local success, Dan chose to strengthen his voice and enhance his performance skills - all while seeing Southern California for free - by playing several leads in a musical touring company. Those who saw Dan's tour will never forget his performance as Scrooge in "A Christmas Carol" or his nefarious Long John Silver in "Treasure Island." Dan feels that to be a well-rounded musician/performer, you should constantly be educating yourself in your craft. So he settled in Los Angeles to further study voice and guitar. He also chose to attend the L. A. Recording Workshop understanding that a recording career can only benefit from knowledge of the mechanics of the recording process. That knowledge also led to gainful employment in the recording industry. He engineered at Doglite Studios in exchange for the opportunity to produce his own CD. And then worked as Head Recording Engineer at Paradigm Studios with artists such as Mother, Rob Sweet (formerly of Stryper) and Jon Christ (formerly of Danzig). In the meantime, Dan was also hard at work performing with the L.A. band No Outlet as they played heavily throughout Los Angeles. Concurrently, Dan promoted his Solo CD - Eclection. In fact, Dan left full-time association with Paradigm to promote Eclection. Eclection has helped Dan reach an entire new audience. It has received airplay in Greece, and is currently being played in Britain by Future Music and Hardcore Fever. Dan has recently finished working on his second CD - "Haunted." A collection of acoustic rock songs that will find you tapping your foot and leave you haunted by memorable choruses and soulful

lyrics. Enjoy!!
