powerful contemplative atmospheric and melodic memory spaces 10 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Soundscapes Details: Gregg Plummer's latest CD, Mirrored Echoes, navigates a haunting yet beautiful journey of introspection into the memory spaces of one's past and the dream spaces of one's future. Immerse yourself in radiant atmospheric textures of sound, emotion, and imagination. Experience mystical sound realms of midnight's darkness that give way to radiant morning sunlight. Along the journey you will rediscover keys to hidden worlds known only to yourself: to the world of a shaman's desire; through the memory spaces that yearn for peace and harmony; toward the dances of joy experienced through the reflections in someone else's eyes. At last, you contemplate the final earthly journey of transmigration into the new beginning.
