Over the last 2 years Bob has been forging a career in the USA where his albums and live performances have received rave reviews. Since its release in August 2002, Bent Over Backwards has sold in the USA, Japan, Spain and Sweden and received airplay in the US, France, Serbia and Portugal. Review: Steve Thorn, Amplifier Magazine: "On 'Bent Over Backwards', London's Bob Kelly -a.k.a. Kelly's Heels-bites into the richest nectars of rock's family tree. There's Merseybeat ('She Doesn't Know It's Wrong'). Everlys-style wistful pop ('Tangled and Plain', 'Bright Tomorrows') and West Coast psychedelia ('Me! Me! Me!'). But when the flavours are combined, 'Bent Over Backwards' is a satisfying meal of pub rock- that fondly remembered genre from the '70s that included the likes of Brinsley Schwartz, Ducks Deluxe and Rockpile. Order up a black-and-tan and enjoy the feast." About the band: Londoner Bob Kelly formed his first band with classmates at school in England at the age of 9. His first band The Ashes gigged regularly around London playing a fast-and-furious brand of post-punk power pop. Following a band name change to Kelly's Heel's, the first album Gone off Pop!?! , was released, followed by Blunt Cut. Bob met Jim Kimberley during the recording of Gone Off Pop!?! His ability to match and, in some cases, challenge, on drums the relentless pace set by Bob on guitar, has led to a positive creative partnership, and two more albums: Bent Over Backwards and Three Chord Brag, plus the Australian Pop Boomerang label compilation, Dig In!. The addition of the beautiful Isobel Morris on bass completes the live line-up. The band continue to gig regularly both in the UK and the US, and are mixing a new album for release 2006.
