Grafted with a East Coast background Metatron delivers a very distinctive sound that grasp the ears of anyone who comes across his path. 17 MP3 Songs HIP HOP/RAP: East Coast, HIP HOP/RAP: Southern Style

Details: As Houston grabs the attention of the industry with its numerous market of hip hop music, there's one name that keeps buzzing around H-Town that has everybody asking who Metatron is as if it were the Mike Jones syndrome. Born raised in Newark, New Jersey; Metatron delivers a distinctive sound out of the 3rd Coast of Houston, TX a city whose rap scene is dominantly known for grillz, candy painted slabs, screw music with the syrupy slang. With that distinctive sound Metatron blends into the H-Town scene with a rugged East Coast look, accent. His musical message is not quit focused on his fellow H-Town artist traditional sound. Compared to the normative sound of flossing and riding swang with the big body slabs, Metatron brings his listeners into a world of lyricism, and raw street rhymes, something that Houston is criticized for not showing. Metatron says he's just adding onto the Houston power scene, so next time the topic comes up about H-Town not having any lyricist; they can bring up one of Houston's illest who holds down the 713 with the quality and skill to disprove that myth. With over 13 years of experience of being an emcee in the hip hop world, Metatron started his off journey as an emcee back in 1993. Using the skills of free-styling; this allowed Metatron to express his pains of day to day living with just rhyming words off his head about life and it had motivated him to dig deeper into his God given gift. With this gift, Metatron began doing battle rapping on the blocks to open mic sessions at different clubs to gain his rep. As a student of the 80s, Metatron grew up off the birth of hip hop from the days of Grand Master Flash to Rakim. He watched as the game had evolved through the golden era of the 80s 90s into the platinum era of the 21st century. The thing which makes Metatron so different than many other

rappers of today is the study of his craft and how hes able to mold his music into a presentation that grabs the attention of anyone that comes across his path. Through out his years of hard work, Metatron has won many battle showcases and hip hop awards. Metatron has taken home the title for best original up coming emcee at the U.M.A. awards, as well as best independent artist. Metatron has come to prove that without a doubt hes the chosen, and Houstons illest on this global take over for lyrical domination among the masses. So next time you hear the haters talking down on the 713 about lacking skills, shut em down, because Metatron is one of Houstons illest to sit on the throne.
