VAST stands for Vibrational Audio Sound Therapy and is an alternative, holistic sound therapy for patients who want to try advanced sound healing therapy. VAST is built around the latest scientific discoveries in multiple harmonic and physical vibrational sound wave technologies. This technology is clinically proven to cause ethereal effects on the listener and to enhance meditations, yoga, palates, massage therapy and deeper healing astral sessions. What does VAST do? Listening and/or meditating using VAST encoded music causes an unusual and odd shift in most adults measurable brainwave frequency range. Adding harmonic chords on top of proven frequency brainwave forms using the VAST encoding method causes the brain's tiny energy waveforms to resonate at higher or lower harmonic levels. This helps force the participants mind, body and spirit into absolute synchronization. This in turn allows participants a whole realm of open pathways allowing higher information transfer, knowingness and spiritual awareness of ones higher self. Listening to VAST encoded music after ingesting our 24 Karat Rose Gold liquid also helps enhance the astral trip. Go to vast.tinymadideato.com to get Rose Gold liquid. How does VAST accomplish healing? By using correctly using this technology, VAST harmonic chords and waveforms are produced in both the sub-audible and audible levels simultaneously. It is done by using preset delay patterns of known brain wave and hemispheric tones. VAST CD audio tracks can effectively raise the vibrational level of a living body (including animals and plant life) to a higher more energetic healing plateau. Once these higher levels are reached, the mind can allow guided healing energies to actually affect physical illnesses and ailments. VAST recharges your Body, Mind and

We have recorded many custom tracks for patients suffering from brain injury, and who suffer from mental disorders where these patients are unable to enjoy or listen to music for any given length of time. We can custom VAST encode single *STRONG wavelengths or multiple wavelengths into a custom, personal CD for your patients or listener. Most tracks are 15, 30 or 60 minutes long. Most patients ask for a 15 minute session and two 30 minute sessions, which we can record on standard VAST Audio CD's.
