Beautiful Solo Piano Arrangements Of Familiar Christmas Classics 23 MP3 Songs POP: Piano, EASY LISTENING: Mood Music Details: I am an artist from Northern California. I create environments for people to enjoy. Surrounded by the beauty of our Ancient Redwood Forests, steeped in the stillness and awe-inspiring power of nature, my art speaks of a sense of peace and well-being amid the struggles of being human The Sounding Joy is a collection of Christmas favorites, from sacred to secular, that was created as a cassette for a Christmas Celebration at the Eureka Inn in Eureka, California in 1992. I hear so often from people who still have, play, and cherish the original cassette in their homes, classrooms and other workplaces that I wanted to add something more to the CD release. I recorded 5 bonus tracks for The Sounding Joy in August of 2004. ----- Recorded at Humboldt Cultural Center, Eureka, CA October 18, 1992. Bonus Tracks Recorded at Laughing Coyote Studios, August 2004 ----- This album of solo piano Christmas music was Matthew Cook's first completed recording. From the standard carols such as Joy To The World, Silent Night, and O Little Town Of Bethlehem to the more secular Santa Baby and Winter Wonderland, this collection rings in the spirit of the season. Combining New Age, Jazz and Popular influences, Cook has created a great addition to any collection of Christmas music that continues to be cherished by many year after year.
