Misundastood is quickly turning into the new era of untainted rap/hip hop. Originally from Arabic descent, they now reside in South Florida where they constantly engage the locals with high energy music and lyrics. Forced to break through the underground barrier to be heard nationally, its proven this group has exactly what it takes to reach the hearts of millions. Escaping the war in Lebanon, their parents ended up in South America with the mother pregnant with one of the sons, (DMIZE), of Misundastood. After 3 years of gaining capital they came to the U.S.A. giving birth to another child (2deep) who is now officially the sole producer of the group. Growing up was a constant move from place to place that left them quickly adapting to new environments and the harsh realty that followed. Danny Aboukhazam aka (DMIZE) was highly influenced by 2pac and first began rapping from observing and listening to the highly anticipated 1996 album 'All Eyes On Me'. The younger one and the genius of the whole operation Chady Boukhazam aka (2deep) started writing and freestyling at age 13. Influenced from 2pac and Nas, his poetry over the years led into his controversial rap you hear today. Creativity was in everything these two did and listening to different genres of music as young kids inspired them to utilize their natural abilities as artists. Makin the party 'live' is an understatement given by the highly intense first performance during their opening for multi-platinum artist Mario Winans. After years of struggling, grinding, and hustling, their music lit the fuse to what is now known as Poetic Hustlaz Inc. Reppin Lebanon and South Florida, these ambitious cats are determined to change the industry and bring hip-hop back to its roots. Their first album 'Darkest Hour' stands behind its name warning all fake MC's to put the MIC down and takes you on a journey through their experiences of pain, love, and misery (some of which they put in a comedic

manner). The album features their cousin (arabb) who puts that dirty south flava on the album and it goes to show that talent runs in the family. (Rick Rose) and (Killa Dru) are also featured on the album and bring nothing but raw lyrics to the table. With a new legacy being born its only a matter of time before the whole world will be trying to understand Misundastood.. This in detainable group has risen from the bottom as true hip hop elite. With Lebanese blood running through their veins and raw beats and lyrics pumping from their hearts, these young Arabic cats are sure to make a mark of originality in the industry.
