"Diverse, emotional, sultry and smooth are just a few words that could be used to describe Michelle Tanner. "In an Indie world overflowing with talented female singer songwriters, Michelle stands a full head above the crowd. Her songwriting is not only fresh and creative, it has a nice sharp edge that only adds to its appeal. "The emotional levels expressed in her vocals are at once satin smooth and instinctively raw - she knows just where to place the emotional emphasis in her tunes to give the most impact. "This album is well produced, the content is creative and full of originality, and her performance and that of the accompanying artists is all pro. This is an artist I will be keeping an eye on." - Bobby Bensley, CMAP Music International
