Gary's soulful, smoky voice, accompanied by his own locomotive style on the 12-string guitar, conjoins with Jane's powerfully pure vocals, harmonizing and consumating a musical blend of the sexes. 11 MP3 Songs ROCK: Acoustic, POP: Beatles-pop Details: First...thanks for checking out and supporting Indie Music. If you like what you hear...bye it, enjoy it and turn your friends on to it! NEW RAIN merges the male/female vocal experience with a very easy to listen to blend that is uniquely their own. They really are together....separately. Gary's soulful, smoky voice, accompanied by his own locomotive style on the 12-string guitar, conjoins with Jane's powerfully pure vocals, harmonizing and consumating the sound of the sexes. They met 10 years ago in Gatlinburg, Tennessee and after a few months as a duo they found themselves entertaining audiences in Spain and Scotland where they appeared in the Edingurgh Festival. It would be simple if you could label them as "Blues", "Rock", "Pop" or "Country", but their music embraces them all. Their music covers many moods and their diversity makes for a memorable and entertaining experience. Just exactly what you should expect. Jane readily admits that Gary does most of the writing, but it is their collaboration that rounds it out and brings it all together. With over 100 songs to their credit, they have completed three CD's and are currently working on another. If you should ever have the chance to see them live you will enjoy a wonderful evening. But for now, just listen. New Rain has "cross-pollinated" several genres. Who listens to just one kind of music anyway? Their lyrics are strong and their melodies flow. If there was such a genre as "Eclectic Acoustic", that would best describe their sound. See if you agree. Be sure and check out their latest cd, "Each Other's Side" also offered at cdbaby.com/newrain2. It just gets better!!
