Rich Creamy Paint- It all started when Rich Painter began making multiple demo tapes of himself playing all the instruments in his garage until one of them caught the ear of his uncle and soon to be producer John Mark Painter. "Rich Creamy Paint" the self titled album was recorded and released on Hollywood Records in the fall of 1999 to rave reviews and included songs featured on MTV's "The Real World" and "Road Rules" as well as the Disney Channel motion picture "Horse Sense". Rich then hit the road for a nation wide tour with band members including now wife Mindy Painter on keyboards and background vocals. Performing with the likes of the Promise Ring, Men at Work, Fleming and John, Ben Folds, and Superdrag, RCP garnered devoted fans while maturing as musicians. Husband and wife duo Rich and

Mindy then began concocting songs for the delicately endearing follow up album titled "Lovers" which was released independently in 2003 to critical acclaim. Fufkinannounced that "Lovers" was "the most beautiful album of the year without a doubt" as RCP began to cultivate a whole new breed of audience who appreciated aesthetics while at the same time enjoyed a good rawk out. For their latest offering Rich Creamy Paint get by with a little help from their friends by enlisting Nashville rockers the Foxymorons, Jetpack, and Harper to collaborate on the rawkingly beautiful split EP "Rich Creamy Paint Friends" which contains 9 tracks of pure bliss including a collaboration track written and performed by all four bands. Be sure to lend an ear to the "Friends" and watch them rawk all while waiting for Rich Creamy Paint's next full length record. richcreamypaint.com email: info@richcreamypaint.com
