A tuneful delight for your heart, mind and ears. 16 MP3 Songs POP: Pop Underground, POP: Pop/Rock
Details: the short term hedonist manifesto ... I want to live in the fullness of my emotions I want to give
with the fullness of my devotion I want to do things i know i will regret I want to murder mediocrity then
smoke a cigarette I want to meet my personalities who haven't shown themselves yet I want to share my
seed with those who have the need I want to cut myself 'til i no longer bleed I want to run with the bulls
and die in the stampede I want to beg and steal but i don't want to borrow I want to fill you up when you're
feeling hollow I want to fail and fail like there is no tomorrow I want to bring chaos just to see your face I
want to bring flowers to scatter 'round your place I want to lick my lips and admire your taste I want to
gaze in wonder at the stars and kick the dirt below I want to walk in the darkness and follow the blackest
line home I want a blackbird to sing at my window I want to think of something and tell you straight away I
want to talk you into me babe I want to start believing that everything's okay I want to see her dance
even though she's a little scared I want to touch her face, to stroke her short dark hair I just want her to
know that I'm not going anywhere I want to swallow my pride and reach way down inside I want to
reassess and readdress if I've lived with an unopened mind I want to embrace the things I've loathed and
be more kind I want to say 'yes' when all you've heard is 'no' I want to suggest that nothing's set in stone I
want to kiss my child goodnight but she lives in another home I want to dress on the left but undress on
the right I want to come through your window at night I want to leave before the morning light I want to
tell the truth even though i have no proof I want a new tattoo for everything i do I want to hurry on down to
the wrecking ball with you I want to see red but that doesn't mean bloodshed I want to be scattered in the
forest when i'm dead I want to take out less than i brought in I want to embarrass myself in front of your
mother I want to fool with the buttons of the dress of your lover I want you to consider running for cover I

want the thrill of mutual appreciation I want to kill unbearable tension I want to rip the flowers out of all the new volkswagons I want to smoke salmon and drink in the view I want a log cabin and paint it blue I want to catch something and give it to you I want to get below the surface of your skin I want to travel through, around and within I want to give away almost everything I want to phrenologise, traverse your pretty headbone I want to apologise should i begin to moan I want to feel your bumps, then write you a little pome I want to write a love letter in invisible ink I want a transparent mind so you can see what i really think I want to thank you for recommending that shrink I want to be bob dylan but he won't let me I want to be unsure of the value of certainty I want three hands, coz that would be handy I want to touch you in places you never knew you had I want a paisley shirt and a pair of acid wash pants I want to pluck out my eyes then do a little dance I want to breathe under water but i don't want to drown I want to wipe the smile off the face of a clown I want to kiss my child goodnight but she lives in another town I want to scare myself stupid beyond all consideration I want to be a short term hedonist with long term aspirations I want a moment of bliss without considering its machinations I want to sip from your cup because your lips were on the rim I want to admire you and her and him I want two dollars to buy you a plastic ring I want to grind all your doubts into the dust I want to be the one to help you find what you thought you'd lost I want to take you into your future and your past ... all I want for us is a chance at happiness, at last ... I want to run a shop that sells nothing at all I want a business card that says nothing at all I want to give advice that means nothing at all I want to really cry at the beauty and the sadness I want to laugh when i think of all this madness I want to fulfill my own internal promise I want to wear a wig and pretend to be someone else I want to shave my head and be more like me than myself I want to get so sick i've got to fight my way back to health I want to rent a car and drive into a tree I want to drink with the devil and take buddha out for tea I want to do something funny and have you laugh at me I want to short-circuit the workings of the soul I want to undermine all the things we know I want mystery to be our only goal I want to love so much that it just regenerates I want to live so much that it just reverberates I want to give so much you'll never need to wait I want to see the april sun in cuba I want to see a fat girl playing tuba I want to be tied up with no room to manoeuvre I want to drink some coffee; i like to be alert I want to buy a whiskey for the man who lost his shirt I want to say, 'don't worry, coz you're just a speck of dirt dirt!' I want to start a religion and be excommunicated I want to start a club then leave coz i'm frustrated I want to draw conclusions using blood that i've donated I want to see the world from all its many angles I want to be

more than you can handle I want to jump from a cliff holding an anvil I want to lay beside a woman mean and gritty I want to stare at her 'til i see something pretty I want to kiss my child goodnight but she lives in a different city I want to live in the fullness of my emotions I want to give with the fullness of my devotion
