Funk/Rythm and Blues/ Soul. The next generation James Brown....The King is on a roll now. Sir Mercy is finding his groove on this cd. If you like real soul and funk you better get this cd. This will be the talk of the year. 12 MP3 Songs URBAN/R&B: Funk, HIP HOP/RAP: Alternative Hip Hop Details: My music was born out of great personal suffering. Suffering caused by a mind that searched the innermost recesses of the world of the unknown. A mind that was driven mad repeatedly due to glimpses of the unspeakable. A mind that in the end conquered the agony of knowledge and the despair of wisdom. The sadness and loneliness of knowing. First and foremost, I am what this society laughingly calls a "psychic." A "healer" and "prophet." Second, I am an artist. I am certain that my style is quite unique. I consider myself to be the next generation James Brown. James was the best in my opinion. My music has a hard edge to it. Hard as far as delivery of content is concerned. In this regard, I call it funk. I have been told by many that there are also elements of jazz in my music. I agree. Some even hear a bit of the Islands. Some hear rock influences. I would say that it has all those elements in it. I hope and pray that others enjoy this music. I tried to create a diverse CD. Time will tell. I chose the title "The King" because that is what I am and because I am greatly offended by where my people come from.....i e.....slavery. I have dedicated my life to transcending this ongoing condition. I have mastered myself and one who is master of himself is king of many cities. The King
