Henry Kisor lost his hearing at age three to meningitis and encephalitis but went on to excel in the most verbal of professions as a literary journalist. This new and expanded edition of Kisor's engrossing memoir recounts his life as a deaf person in a hearing world and addresses heartening changes over the last two decades due to the Americans with Disabilities Act of 1990 and advancements in cochlear implants and modes of communication. _x000B_Kisor tells of his parents' drive to raise him as a member of the hearing and speaking world by teaching him effective lip-reading skills at a young age and encouraging him to communicate with his hearing peers. _x000B_Kisor updates the continuing disagreements between those who advocate sign language and those who practice speech and lip-reading, discusses the increased acceptance of deaf people's abilities and idiosyncrasies, and considers technological advancements that have enabled deaf people to communicate with the hearing world on its own terms.
