Awesome Link Effects

Give Your Website Some ALE No More Boring Old Links Opening In A new Window Now You Can Keep Your Visitors On YOUR Website Regardless Of Where You Link To How many visitors have left your site never to return after clicking on one of your links to an external webpage? How many times have your visitors got lost on your site when trying to view videos or images and they forgot where they came from? How many times have you had to give up the URL of one of your 'secret' sites because it shows in the web browser address bar? How many times have you fumbled around putting together pop up windows or the like to keep your visitors on your site? Well those days are over. Now you can have pages open over the top of your website without fear of losing visitors. Thats not the only option available. Do you have a set of webpages such as instructions or a set of videos to follow? Why not have them all viewable in order with 1 link? Maybe you have a set of images you want to show. All these effects and more (a total of 6 in all) can be easily created with ALE. ALE is a script that runs on a php server that gives you a set of forms, you fill in the details for the effect you want, press a button, and up pops the html code you paste into your webpage for the link. -- You Can Get

It Here For Only $17! -- So what are you waiting for, give your website some ALE. Tags: php
