Bill Blomquist and band, "Winds of Grace" puts out a warmly rich, eclectic sound for the listener wanting to get outside of mainstream of CCM and into some well-written, musically fluid songs. Some are hebraic, some are devotional, others are heart-cries 8 MP3 Songs GOSPEL: Contemporary Gospel, NEW AGE: Healing Details: We now have two CD's for your perusal. A traditionally rich and orchestrated project called "Amazing Grace" and and eclectic - sometimes musically bizarre - "When Pigs Fly," a hip CD that especially appeals to kids and teens. Both are Christ-centered projects which will bring a blessing to anyone who listens. Nab one now! Bill's songwriting seeks to be relevant, truthful, and ancient modern in sound. He is an Episcopal Priest and serves the church as songwriter, missionary, and ministry equipper. He came to know Christ on a beach in central Florida in 1977 and almost immediately began ministry. He has led worship across the globe and God has used him enormously, especially in the areas of teaching, worship, and healing. Bill's songwriting and music is a just a tad out of the mainstream CCM box, which is intentional. Mainstream isn't always the all in all of all Christians everywhere, especially in mainline denominations where Bill tends to minister most. Two of his projects, "Amazing Grace" and "When Pigs Fly" present varied, honest appraisals of the Christian journey. From the chant-like brokenness in "Bleeding Prodigal" to the war cry in "Battle Song," (both featured in "Grace") -- and from the pure glitter-rock sound in "Dancing" to the the children's balled "Billy's Toys" (featured in "Pigs") -- his music seeks to cover numerous (and sometimes humorous) facets of Christian expression. Some background on the records: "When Pigs Fly" is an eclectic and fun, revealing a variety of styles from ballad, country, vintage '80's, and good ole rock 'n roll. The rap song "When Pigs fly" as well as the euro-tech-sounding "Helium Hands" - while humorous and crazed - have embedded within them strong salvific themes and encourage a Holy Spirited, Christ centered, passionate walk with the Lord. "Pigs" is an excellent kid/youth

choice for the person who wants to get out of the mainstream box. The CD "Amazing Grace" is an eight song compilation of requested songs which have proven to be fruitful in praise and worship arenas. It is a richly orchestrated collection, sometime chorale' in feel, that is currently quite popular in pockets of the nation (most noticeably Florida, Colorado, and Texas). The re-make of John Newton's wonderful hymn is overlaid over a contemporary, singable melody which was given to Bill in a dream. This song alone has skyrocketed in popularity in many churches and (if truth be known) is the underlying reason for the pressing of this CD in the first place. "Amazing Grace" is an ideal gift for the worship leader seeking refreshing music which is singable and lyrically descriptive. It would also be appreciated by the seasoned traveler of the Way. Since Blomquistian Music, Ltd. is a ministry seeking to serve, it is our highest priority to make Bill's music as accessible as can be. Prices are nominal at best. Yet, if you cannot afford it, write Bill and an arrangement will be made. And - as always - free lyrics and chord sheets are yours, just for the asking!
