A unique blend of pop that incorporates R+B, jazz, and very catchy melodies to make a harmonic pie like you've never tasted before. 6 MP3 Songs POP: Beatles-pop, JAZZ: Jazz Vocals Details: The Josh Goode Band is a unique pop/rock band with ample jazz, reggae, and funk undertones. In their three years together, the band has honed an exciting live show that gives their rapidly growing fan base a unique experience every time. At times funny, other moments touching - yet always consistently powerful and fun. The band has played hundreds of shows together, and after sharing bills with some of the nation's largest talents (Peter Frampton, Smashmouth, Los Lonely Boys, Nelly Furtado, Bob Schneider) in some of the southwest's most prestigious venues (Antones, Trees, Juanitas) and appearing on national television programs such as Budweiser and HDTV's "True Music" and writing songs for CBS, the Dallas Cowboys, and the Dallas Mavericks - the JGB has begun the upward trend that will begin to propel them far from being a local secret, and into the national spotlight. With the release of their new album, "Exit From a Muse" the JGB has shown their fans yet another side of the band's musical diversity. Shedding their previous skin of hyper-jazzed up pop, the new album focuses more on the song, rather than the player, with styles ranging from Beatlesque-pop to R+B, to simple catchy acoustic tunes. Just check out the samples - you'll see. Enjoy, and thanks!!
