Field tested and approved by the singer's children, this accomplished album of lullabies features a program of familiar, rarely heard and new songs, all sung by an artist known for the range of her talent and taste. 18 MP3 Songs KIDS/FAMILY: Lullabies, KIDS/FAMILY: General Children's Music Details: In the title song on her album, "The Long Refrain," Kathy Tugman expresses her thankfulness for all the singers "who will face the fact of the world." Kathy's albums do just that and more as she searches for a way through the world and sings of the spirit that allows us to love and remember. Listening to Kathy's records will give you a good idea of who she is and what is important to her. (The Executive Producer says that the lady is partial to kindness, a good hook and real solid rhythm sections, and she has got them all.) You will also hear a satisfying variety of music on Kathy's albums, all in what is essentially a pop style but one that recognizes and draws on the broad range of music that goes to make up that style. There are piano vocals, guitar pop, country, blues and bluegrass, and that doesn't even get to the love for family, the preservation of the past and the power of the spirit. Kathy lives in Chattanooga, Tennessee, where she and her crackerjack band have performed at the Riverbend Festival, at Miller Plaza and other venues around town. Her college training was, not surprisingly, in music, and she has continued that education diligently on her own as she has absorbed a very broad range of influences. As she has expanded the secular reach of her original material found on her albums, she has maintained her ties to religious music, both as a choral singer and as a conductor of a hand bell choir. These two sides of Kathy's musical self meet in the spirituality and sensibility she brings to her albums. Her music can swing and rock, without losing touch with that search for a loving but clear-eyed response to the world we know everyday. kathytugman.com
