Enchanting and gentle music from a mediterranean artist. 7 MP3 Songs FOLK: Gentle, POP: Folkly Pop
Details: Orlando Ef was born in central Italy in a small fishermen town. At the age of 13 he starts to write his first musical compositions with an old classical guitar exhumed from the mysterious attic of his grandparents. After years of studies and artistic collaborations with musicians and friends from the same area Orlando decides to explore the lands outside Italy getting english residency. The refreshing and exciting time in London brings Orlando to collaborate and work with international musicians and people from the british music industry. Today Orlando Ef releases his debut solo album. Agmena, which gives the title to the work, was born between England and Italy; it has been produced entirely at home and composed exclusively with acoustic instruments. The mood is peaceful and intense; the lyrics are creative and visionary. A kind of music which recalls images from classic motion pictures.
