

Mp3 Postscripts - The Day After Tomorrow

[DOWNLOAD HERE](#)

Between cliqhop and instrumental idm postscripts creates atmospheric catchy music mixing analog and digital instrumentation definitely a new and much welcomed voice on the horizon. 12 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: POSTSCRIPTS the day after tomorrow A laptop artist gone pop who has defined a unique sound in his first solo record. Its atmospheric and catchy music that mixes analog and digital instrumentation, from textured guitars, swelling and shimmering sonic waves to electronic bleeps, and whimsical beats. This record crosses many styles from song to song yet sounds like a good story from beginning to end. It is dreamy and dramatic with subtle transitions that give pop sensibility to getting naked. The day after tomorrow is postscripts dbut record by an amazing one-man band, if you like The Album Leaf you will want to marry postscripts. This is just the first album by an artist who will assuredly redefine how music is made and listened to.
