An eclectic instrumental journey with musical flavors of Spain, the Middle East, and the Wild West performed on acoustic guitars and backed by exotic percussion. 12 MP3 Songs WORLD: World Fusion, LATIN: General Details: Sandgarden is an instrumental guitar duo, playing World-influenced original compositions. We play primarily Spanish nylon-string guitars, with occasional percussion accompaniment. Our goal is to fuse all of our influences (Spanish, Mexican, Arabic, Rock and Roll, Americana) into a format that is both relaxing and invigorating. Sandgarden was created in 2003. One entire year was spent developing original material, and showcasing it at restaurants, private parties, and community events. Recording took place in 2004. The album "Texican Guitars" contains 12 original songs. Each song has a different feeling and images associated with it. Most of the tracks were recorded live and in one take, to capture an improvised and natural feeling. "Texican Guitars" is an authentically personal musical expression, and we hope you enjoy it.
