

Global Analysis Of Minimal Surfaces

[DOWNLOAD HERE](#)

Introduction.- Part I. Free Boundaries and Bernstein Theorems.- 1.Minimal Surfaces with Supporting Half-Planes.- 2.Embedded Minimal Surfaces with Partially Free Boundaries.- 3.Bernstein Theorems and Related Results.- Part II. Global Analysis of Minimal Surfaces.- 4.The General Problem of Plateau: Another Approach.- 5.The Index Theorems for Minimal Surfaces of Zero and Higher Genus.- 6.Euler Characteristic and Morse Theory for Minimal Surfaces.- Bibliography.- Index. EAN/ISBN : 9783642117060 Publisher(s): Springer, Berlin Discussed keywords: Differenzialgeometrie, Fläche Format: ePub/PDF Author(s): Dierkes, Ulrich - Hildebrandt, Stefan - Tromba, Anthony J.
