You are probably wondering what I am talking about, right? I am talking about my website's "link popularity". Unless, you have been in hibernation or maybe not in the know, you should have heard about "link popularity and should be vary aware of what it means to YOU! What is "link popularity"? Very simply...Link Popularity is the total number of websites that have a link to your site. The more sites linking back to you, the better your link popularity is. The higher number the better! Link popularity is a term you need to get to know. Most major search engines don't rely on Meta-Tags anymore and base your search listings based upon your "link popularity. Don't you think you should know what yours is? Don't you think you should know what your competitor's is? Now you can right from your very own Desktop. You can now check your website's link popularity right from your very own desktop, with my new Link Check Generator! I created this product with very selfish reasons in mind. You see, I have been watching my link popularity rise almost every week. The problem is, I had to go to some website somewhere to do it. This may sound simple to do, but it was very time consuming. Not only did I check my link popularity, but I have also have been monitoring ALL my competitors too. I wanted to know how they where doing in their marketing efforts as well. You could say, I was becoming a "secret agent" of sorts, the good kind of course. I needed a way to check this information that search engines hold in such high value, anytime I wanted and not waste my time in doing it. So I created Link Check Generator! Here is are 7 reasons why you need this product today! Secretly Spies On Your Competition! - "Keep your friends close and your enemies closer!"
