Comprised of musical evolutionists, Gavin Christopher, Anzu Cristina, Lee Curreri and Gyrl Frennd, Aquabox "the group" and Aquabox "the album" are both truly progressive and multi-dimensional. Drawing from each member's talents, the music is Space Hop: a rhythmic conglomeration of retro-funk, soul and trip-hop blended with strong elements of drum'n'bass. The group says, "before you find this music in mass media you should look for it in real-life . . . because the evolution will not be televised."
