Christian, Rockabilly, Country 13 MP3 Songs COUNTRY: Country Pop, ROCK: 70's Rock Details: Hi My name is Bob Allen also known as Bobby Allen. I was born the day after Pearl Harbor December 8,1941 in Crosskeys, South Wales. I grew up in London. I decided music would be my career after attending a Bill Haley concert as a teenager in London. I came to the States as part of the British Invasion as the drummer for The Fabulous Minets of London in 1964. I played with Sunday's Child, Freddie and the Freeloaders, and the Jesters. While playing with these bands I was also a disc jockey for popular radio station in Providence, Rhode Island. I was known as British Bobby. I moved to California in the late sixties to audition for "The Cowsills" new television series. It became "The Partridge Family" Some of the popular personalities I have had the pleasure of performing with are David Bowie, then known as David Jones and The King Bees, Jerry Lee Lewis and Jimmy Page. Locally I have played for several years with David Wendells and Dave Schaffner in the trio "Rockability". My main instrument is the drums. I can play piano and the guitar On this CD I play and sing just about everything. The material has strong Christian overtones, some country and of course my favorite Rockabilly. So kick back and Enjoy.....
