Raunchy Hardcore Thrash Metal with a Punk attitude, and light Industrial overtones. Something for the whole dysfunctional family to enjoy. 6 MP3 Songs METAL: Thrash/Speed Metal, METAL: Power Metal
Details: Contraddiction formed in the early 1990's with a strange mix of musicians. A punk bassist, full on metal theory guitarist, a vicious speed metal drummer, and an inexperienced singer/writer who tied all the loose ends together, and delivered them right in your face. Although short lived and disbanded by 1997, they produced two heavy hitting CDs. The studio mix heard hear, and a live album that was only released locally, and in the works for national release. With little money, the mix is raw, but Contraddiction always packed the house and set record numbers wherever they played. Their mix of Thrash, Punk, and Industrial is unique to this day, and remains something the whole dysfunctional family can enjoy!
