

Mp3 David Cooper - Truly Yours

[DOWNLOAD HERE](#)

Home made, easy listening songs that are gentle on the ears that come from the heart and mind and are totally real music based, no gimmicks just music to listen and enjoy. 15 MP3 Songs EASY LISTENING: Mature, FOLK: Folk Pop Details: There's nothing much to say really apart from that I have been interested in music from an early age after hearing the Beatles when they broke onto the scene and changed music as it had never been changed before or since. I first picked up a guitar around the age of 14 and had many fruitless attempts at trying to be the next Paul McCartney or Jimmy Page until one day in the 70's it began to click. Anyway the years went past and due to life's little tricks and turns it was not until the late 90's that I managed to find the time and the finance to purchase some home recording gear and the result is what is on offer. I have been writing songs on and off for 30 years, some lately with a friend of mine Ralph. Up to date I have written some 200 songs or so. Since purchasing the equipment I would like to think my playing and writing has improved and the songs I recorded are worth a listen and maybe you would like to purchase copy of my CD. The songs are simple and come from the heart and mind and are all live music without the embellishments of professional studio gizmos and electronic trickery. The first song "The promised land " is to be included on a compilation CD being released by Chromium Records who are based in Liverpool, England. This is due for release at the end of February 2005. Below are some of the comments made by the A&R staff at Chromium Records about my songs. Vocal ability Very Good Musicianship Very Good Song writing Excellent Originality Excellent Presence Excellent Additional comments include: "Beautifully composed songs both musically and lyrically. The songs have been carefully constructed and demonstrate simplistic, effective songwriting at its best. Certainly an original genre that is very striking indeed." "As a songwriter David's aspirations are unlimited. This music would be accepted by the industry, film as well as television." Please have a listen to the

samples and make your own mind up.
