Details: Heaton's new single is a return to his electro-pop best. From its pulsating bass line to its sing-along lullaby chorus the track is as catchy as it is instant. The track is written by Heaton, Ireland (Dont Wanna Be Lonely) and Burke (Computer Music) marrying the worlds of guitar and electro blips together to create this truly popstastic track. The single is available as part of 2 digital bundles. The (Single) bundle includes the radio edit alongside a brand new remix of a former Heaton/Burke track entitled True Blue from the Computer Music era. The (Mixes) bundle, on the other hand, focuses purely on the title track by showcasing some excellent up and coming remix talent in the form of Project K, Octo5 and Tedd-Z. All 3 producers present their own very unique slant on the track, with only one thing remaining..and that is your need to dance.
