Details: In the midst of bright lights, ubiquitous movie stars, towering buildings, and Grammy award winning entertainers there exists an emerging phenom of which Hollywood and the music industry very seldom see, a unique talent that comes along but once every few years. He is a young entrepreneur who can produce his own music, write his own lyrics, and flow as well as, if not better than some of the greatest emcees in the game today. He is the C.E.O of Karpediem Productions, Jahred Chapter. This Los Angeles native possesses that rare gift of a musical ear that places his sound in a style of its own. Without using samples from old records or drum loops from five year old, played-out hits, Jahred Chapter composes an amalgamation of R B and hip-hop tracks that can't be recognized as old hits transformed, but rather new hits forged from his mind's ear. These musical potions radiate a power that seems to put its listeners in a state of awe. Jahred's clever lyrics with catchy hooks create that after effect where you just can't get a song out of your head. Jahred's talent is that rare type that is finally putting the art back into the hip-hop and rap world. He has given a new essence to lyrics of substance while finding a way to skillfully mix underground content with mainstream, club-bangin' tracks. Jahred Chapter is the glue that is going to fuse the separation of mainstream and underground hip-hop, bringing in an audience from both genres that will extract masses of listeners all across the globe to vibe with his innovative, eclectic style. Jahred Chapter is the next big phenom in the music world who has already begun to captivate audiences in his home-town of Los Angeles while threatening to spread like wild fire with the right distribution and support.
