The melodies are simple and sort of bittersweet, and contain many references to people and places that he loves where he lives in Michigan .He says in the liner notes: The ancient celts believed that the harp had three magical powers: The power to bring laghter, to bring tears, and to bring sleep. The latter made it the perfect choice of instruments for recording a collection of lullabies for my grand daughter, Rylee.As artistic endeavors often do, this project took on a life of its own, and I found myself to be more a follower than a leader.early on began to sound different from what would be considered a typical lullaby. It is, nonetheless quite relaxing and will probably help conjure sleep for infants and adults as well.
