One of the best compilations of musicians and song-writers form "Los Claxons", this band was signed by independent record label "movic records" in 2004 and the production was finally released in late 2004 or early 2005. "Sin Ganga" was the result of almost 10 months of re-writing and arranging their songs and recording the album. "Los Claxons" is a band formed by 4 really talented guy's who had been playing music since their childhood, they had played all around Mexico and in some parts of the United States, this band really rocks the house when they play. Their songs are amazing and have a sense of fun, humor and facts of life at the same time. The music is rock, and the songs are kind of pop, but don't mistake this "pop" with stupid or plastic "pop", when we say pop we mean that its very easy to listen and understand the mood. Every song is a new stage and a new story based on an actual story or feeling.
