Lying Delilah is a soulful, sultry sound that blends jazzy blues with straight up rock. With their debut album finally released, you're in for an unbelievable rhythm section mixed with unique vocals that have been described as "spine tingling" 9 MP3 Songs BLUES: Blues Vocals, ROCK: Progressive Rock Details: Lying Delilah will rock you! With keys, bass, drums and vocals...alongside of musical twists and turns in all directions....Lying Delilah will surely be a musical adventure for you! On KEYS/VOCALS- Jodi Rosenthal has been quoted as sounding "soulful and sultry" and her voice will captify any audience and bring them to their knees just to rock them right in the face. On DRUMS/VOCALS- Andy Dumaresq has a wide range of bitchin talents as well as strong vocal ability. Songs cut in and out of jazz and rock progressions with Andy smiling the whole time. The expression in his face is only matched by his quick licks and roundabout drumming. BASS- Steve Pesich uses a bold technique of combining rythm basslines and almost acts as the bands guitar player at times. Five string bass for each of his fingers and lows that shatter your brain. NewSlang magazine says, "If there was ever a genre of rock that sounded soft but felt hard, this is it-almost as if the band is suffering a moral conflict between wanting to be good and wanting to be bad." "Polygraph" takes you on a journey....every song makes you feel something completely different.
